PROTECTED DISCLOSURES

PROCEDURE 3.10

The St Patrick's School Board of Trustees ensures procedures are in place to meet the requirements of the *Protected Disclosures Act 2000*.

PROCEDURES:

Procedures for making a protected disclosure under the *Protected Disclosures Act 2000*.

- ❖ If on reasonable grounds you believe you have information that a serious wrong doing is occurring (or may occur) within the school, and you wish to disclose that information so it can be investigated, you can make protected disclosure to the Principal.
- ❖ This can be done verbally or in writing. You should identify that the disclosure is being made under the *Protected Disclosures Act* and is following the board procedure, provide details of the complaint (disclosure) and who the complaint is against.
- ❖ If you believe that the Principal is involved in the wrongdoing, or has an association with the person committing the wrongdoing, that would make it inappropriate to disclose to them, then you can make the disclosure to the chairperson of the board of trustees.
- ❖ It is then up to the person you disclose to, to decide if the disclosure constitutes a serious wrongdoing, and that the allegations need investigating. They can decide:
 - (a) To investigate the disclosure themselves
 - (b) To forward the disclosure to the board, or a committee of the board, to investigate
 - (c) Whether it needs to be passed on to an **appropriate authority**. If it goes to an appropriate authority, they will advise you that they are now investigating the complaint.
- ❖ If you believe that both the Principal and the Chairperson of the Board of Trustees may be a party to the wrongdoing, or in close relationship with person/s involved in the wrongdoing, you can approach an external 'appropriate authority' directly yourself.

Who is an 'appropriate authority?'

- ❖ As noted above, in some circumstances the disclosure could be made to an appropriate authority by you, or the person to whom you have made the disclosure. An appropriate authority is defined in the Act as including:
 - “(a) Includes:
 - (1) The Commissioner of Police:
 - (2) The Controller and Auditor-General:
 - (3) The Director of the Serious Fraud Office:
 - (4) The Inspector-General of Intelligence and Security:
 - (5) An Ombudsman:
 - (6) The Parliamentary Commissioner for the Environment:
 - (7) The Police Complaints Authority:
 - (8) The Solicitor-General:
 - (9) The State Services Commissioner:
 - (10) The health and Disability Commissioner; and
 - (b) includes the head of every public sector organisation, whether or not mentioned in paragraph (a).”
- ❖ Clause (b) can mean that in certain circumstances the appropriate authority could be the Secretary for Education of the Ministry of Education or the Chief Review Officer of the Education Review Office (ERO)

Why can't I just go to the appropriate authority myself?

- ❖ There are three circumstances when you can go directly to the appropriate authority:
 - (a) When you believe that the head of the organisation is also party to the wrongdoing or has an association with the person which would make it inappropriate for them to investigate.
 - (b) If the matter needs urgent attention or there are other exceptional circumstances.
 - (c) If after 20 working days there has been no action or recommended action on the matter to which the disclosure related.
- Otherwise you need to go through the internal processes.

What happens if even the appropriate authority does nothing?

- ❖ You could then make the disclosure to the Ombudsman (unless they were the authority you have already disclosed to) or a Minister of the Crown
- ❖ The Act does not protect you if you disclose information to the media or a member of parliament other than a Minister of the Crown in the circumstances referred to above.

Where can I find out more information?

- ❖ If you notify the Office of the Ombudsman verbally, or in writing, that you have disclosed, or are considering a disclosure under the Act, they must provide information and guidance on a number of matters, including those discussed here and the protections and remedies available under the *Human Rights Act 1993*, if the disclosure leads to victimisation.
- ❖ A copy of the Act can be found on the internet at Legislation on Line <http://rangi.knowledge-basket.co.nz/gpacts/actlists.html>

THEFT AND FRAUD PREVENTION POLICY

POLICY NO 4.3

INTRODUCTION

- ❖ All people are equal because they have human dignity. Differences in talent are acknowledged, but social, cultural and economic discrimination is not acceptable.
- ❖ The Board accepts that it has a responsibility to protect the physical and financial resources of the School. The Board has agreed that through the Principal, the school has a responsibility to prevent and detect theft and fraudulent actions by persons who are employed or contracted by the School or who are service recipients of the school. The Board accepts that any investigation into any theft or fraudulent actions will be conducted in a manner that conforms to the principles of natural justice and procedurally just and fair.
- ❖ The Board, therefore, requires the Principal to establish systems and procedures to guard against the actions of theft and fraud. The Principal is to report such actions to the Board Chairperson as prescribed in the procedures set out below.

GENERAL

- ❖ As preventative measures against theft and fraud the Board requires the Principal to ensure that:
 - a) The School's physical resources are kept secure and accounted for.
 - b) The school's financial systems are designed to prevent and detect the occurrence of fraud. All such systems must meet the requirements and standards as set out in the Public Finance Act 1989, Section 45C(b) and of generally accepted accounting practice promulgated and supported by the Institute of Chartered Accountants of New Zealand.
 - c) Staff members who are formally delegated responsibility for the custody of physical and financial resources by the Principal are proven competent to carry out such responsibilities and that such persons are held accountable for the proper execution of their responsibilities.
 - d) All staff members are aware of their responsibility to immediately inform the Principal should they suspect or become aware of any improper or fraudulent actions by staff, suppliers, contractors, students or other persons associated with the school.
- ❖ In the event of an allegation of theft or fraud the Principal shall act in accordance with the following procedures:
 - a) Decide to either immediately report the matter to the New Zealand Police or proceed as outlined in this paragraph.
 - b) So far as it is possible and within 24 hours:
 - i) Record the details of the allegation, the person or persons allegedly involved, and the quantity and/or value of the theft or fraud.
 - ii) Request a *written statement* from the person who has informed the Principal, with details as to the nature of the theft or fraud, the time and circumstances in which this occurred, and the quantity and/or value of the theft.
 - iii) Decide on the initial actions to be taken including consulting with the person who provided the information and, if appropriate, confidentially consulting with other senior members of staff about the person who is the subject of the allegation.
 - iv) Inform the Board Chairperson of the information received and consult with them as appropriate.
- ❖ On the basis of advice received and after consultation with the Board Chairperson, the Principal shall decide whether or not a *prima facie* case of theft or fraud exists, and if not, to document this decision and record that no further action is to be taken.
- ❖ The Principal shall then carry out the following procedures:
 - i) Investigate the matter further in terms of procedures as set out in sub-paragraph (d);
 - ii) If a *prima facie* case is thought to exist to continue with their investigation;
 - iii) Invoke any disciplinary procedures contained in the contract of employment should the person be a staff member;
 - iv) Lay a complaint with the New Zealand Police;

- fraudulent action to determine the likelihood or not of such evidence;
 - vii) Seek legal advice; or
 - viii) Inform the Manager, National Operations, Ministry of Education local office and/or the school's auditors.
- ❖ Once all available evidence is obtained the Principal shall consult the Board Chairperson. The Board Chairperson may, if they consider it necessary, seek legal or other advice as to what further action should be taken.
- ❖ If a case is considered to exist the Principal or a person designated by them shall, unless another course of action is more appropriate:
 - i) Inform the person in writing of the allegation that has been received and request a meeting with them at which their representative or representatives are invited to be present.
 - ii) Meet with the person who is the subject of the allegation of theft or fraud and their representatives to explain the complaint against them.
 - iii) Obtain a verbal or preferably a written response (all verbal responses must be recorded as minutes of that meeting, and the accuracy of those minutes should be attested by all persons present).
 - iv) Advise the person in writing of the processes to be involved from this point on.
- ❖ The Board recognises that supposed or actual instances of theft or fraud can affect the rights and reputation of the person or persons implicated. All matters related to the case shall remain strictly confidential with all written information kept secure. Should any delegated staff member or any other staff member improperly disclose information the Principal shall consider if that person or persons are in breach of confidence and if further action is required. Any action the Principal considers must be in terms of the applicable conditions contained in their contract of employment and any code of ethics or code of responsibility by which the staff member is bound.
- ❖ The Board affirms that any allegation of theft or fraud must be subject to due process, equity and fairness. Should a case be deemed to be answerable then the due process of the law shall apply to the person or persons implicated.
- ❖ Any intimation or written statement made on behalf of the school and related to any instance of supposed or actual theft or fraud shall be made by the Board Chairperson who shall do so after consultation with the Principal and if considered appropriate after taking expert advice.

ALLEGATIONS CONCERNING THE PRINCIPAL OR A TRUSTEE

- ❖ Any allegation concerning the Principal should be made to the Board Chairperson. The Chairperson will then investigate in accordance with the requirements of paragraph 4 of this Policy.

POLICY 5.2

INTRODUCTION

The intent of the Smokefree Environments Act is to prevent so far as is reasonably practicable the detrimental effects of smoking on the health of any person who does not smoke or who does not wish to smoke, inside any workplace or in certain enclosed areas.

PURPOSE

To demonstrate to students that smoke free lives are desirable and possible. To this intent the entire St Patrick's site is designated as smokefree.

POLICY

St Patrick's School is a totally smokefree school. This includes the buildings and grounds, seven days a week and 24 hours a day.

This Smoke-free Policy also applies to the use of electronic cigarettes (e-cigarettes), personal vaporizers and electronic nicotine delivery systems. The prohibition of these devices wherever smoking is prohibited is on the basis that these products do not provide recognised health benefits while introducing several negative consequences, including undermining the enforcement of this policy.

Step 2. Look for Signs of Abuse

- ❖ Look in each of the categories: physical signs, behavioural signs, developmental signs, parent/caregiver or family signs, disclosure as a sign.

- ❖ Some signs are more specific to abuse than others eg.
- ❖ Disclosure of abuse or neglect by a child or young person.

- ❖ Age inappropriate or abnormal sexual play or knowledge.
- ❖ Specific sites or patterns of injuries.
- ❖ Development of signs in one or more categories at the same time (eg. developmental delay, physical injury and behavioural signs together) indicates a pattern.

POLICY 5.16

ST PATRICK'S SCHOOL **PHYSICAL RESTRAINT POLICY**

Rationale

The Education Act 1989, (Section 139AD) defines physical restraint as using physical force to prevent, restrict or subdue the movement of a student's body or part of the student's body.

The Education Act 1989 provides for the circumstances when teachers and authorised staff members may physically restrain a student. In exercising these powers, teachers and authorised staff members must act reasonably and proportionately in the circumstances to achieve a safe environment for students and staff.

At St Patrick's School, this policy around the use of physical restraint sits within the wider principles of Catholic social teaching, whereby we believe every person is made in the image of God and therefore has innate dignity. Everyone attending or working at St Patrick's School has the right to:

- Be treated with respect and dignity.
- Learn and work in a safe environment; and
- Be protected from harm, violence, assault and abuse.

Purpose

To comply with Section 139AD of the Education Act, 1989 and provide an environment where all staff, students and parents are aware of:

- the use of physical restraint in schools
- the employees authorised to use physical restraint
- the circumstances in which physical restraint may occur
- the follow-up mechanisms should such an event occur.

Identification of When Physical Restraint May Need To Be Used

Physical restraint is a serious intervention. The emotional and physical impact on the student being restrained and the person doing the restraining can be significant. There are legal and reputational risks if a student is harmed. The first aim should be to avoid needing to use physical restraint. Use preventative and de-escalation techniques to reduce the risk of injury. Use physical restraint only when:

- The teacher or authorised staff member reasonably believes that the safety of the student or of any other person is at serious and imminent risk.
- The physical restraint response must be reasonable and proportionate in the circumstances:
- Use the minimum force necessary to respond to the serious and imminent risk to safety.
- Use physical restraint only for as long as is needed to ensure the safety of everyone involved.

Teachers and authorised staff members will need to use their professional judgement to decide what constitutes "a serious and imminent risk to safety". These situations are examples.

- a student is moving in with a weapon, or something that could be used as a weapon, and is clearly intent on using violence towards another person
- a student is physically attacking another person, or is about to
- a student is throwing furniture, computers, or breaking glass close to others who would be injured if hit
- a student is putting themselves in danger, for example running onto a road or trying to harm themselves

Avoid using physical restraint to manage behaviour in these situations:

- to respond to behaviour that is disrupting the classroom but not putting anyone in danger of being hurt for refusal to comply with an adult's request
- to respond to verbal threats
- to stop a student who is trying to leave the classroom or school without permission as coercion, discipline or punishment
- to stop a student who is damaging or removing property, unless there is a risk to safety.

Who Can Use Physical Restraint

- Physical restraint should only be applied by teachers and authorised staff.
- A non-teacher authorised by the Board to use physical restraint must be informed in writing by the Board.

Note: There may be situations when an unauthorised staff member intervenes and physically restrains a student, for example when there are no teachers or authorised staff nearby. The Education Act 1989 will not cover the intervention of an unauthorised staff member who physically restrains a student.

- If teachers and authorised staff members do not have the skills or confidence to safely restrain a student, call for help.
- After all alternatives have been explored staff should call the police when a student cannot be managed safely and the imminent danger to students, staff or themselves remains.

All staff should be aware that physical restraint is a serious intervention to be used when no other, less severe, options are available.

Reporting

Staff must complete an incident report.

Use the form attached as **appendix 1** to these guidelines, or other suitable template.

The staff members involved in the physical restraint should sign the incident report, as well as the Principal or Principal's delegate.

Put the completed forms on the student's file, and make them available to the student's teacher and parents or caregivers.

This must be completed as soon as possible and always within 24 hours

- All incidents of physical restraint must be reported to the Ministry of Education and the employer. Use the form attached as **appendix 2** to these guidelines. Complete the form and email it to physical.restraint@education.govt.nz. Provide a copy of the form to the employer.

Note: If the Principal applied the restraint, a delegated senior management team member should sign off the report.

- Debriefing forms should be completed by the Principal or delegate.
- Information on physical restraint incidents will be shared with the Board of Trustees via the Principal's report, in a session that excludes the public.

Follow Up

After an incident involving physical restraint:

- The staff member and the student are to be checked regularly to ensure they are not in shock.
- Parents or caregivers are to be informed the same day the incident occurred.

Debriefing the Incident

Debriefing staff

- A debriefing session will be held with staff involved, the Principal or Principal's delegate, and another member of staff not involved in the physical restraint incident, within two days of the incident.
- In the debriefing, focus on the incident, the lead-up to it, the different interventions used that were unsuccessful in de-escalating the behaviour, and what could have been done differently.
- If Ministry or RTLB practitioners are part of the student's team, involve them in the debriefing process.
- If the police were involved in the incident, invite them to participate in the debriefing session.
- The Principal is responsible for facilitating the debriefing unless they are the person who applied the physical restraint. If this is the case, a suitable senior leader in the school should take this role.

Debriefing parents or caregivers

- Parents or caregivers are to be offered a separate debriefing as soon as practically possible, preferably within two days of the incident.
- The Principal is responsible for facilitating the debriefing unless they are the person who applied the physical restraint. If this is the case, a suitable senior leader in the school should take this role.

Managing complaints from parents

- It is understandable that some parents may feel upset if their child has been physically restrained. The school will follow the policy on responding to parent complaints.
- If the complaint cannot be easily resolved the school will contact the local Ministry of Education, Education Advisor.

Reflection

- Reflect formally on why the incident occurred that resulted in the student being restrained. Consider what might have prevented it, and what might need to change to minimise the likelihood of it happening again.
- Consider whether all preventative and de-escalation strategies were used according to the Individual Behaviour Plan, if there is one, and whether the restraint used was safe.
- Review the Individual Behaviour Plan and make decisions as a team about what needs to be strengthened to minimise the likelihood of a similar incident.

BULLYING PROCEDURE

Bullying Procedure

Bullying is a form of harassment, and usually refers to intimidatory behaviour between school students, but may involve staff.

Bullying is deliberate, harmful behaviour that is often repeated, or continues over a period of time. It often involves a power imbalance and it is difficult for those being bullied to defend themselves. Bullying takes place in the digital world too, through **cyberbullying** and texting.

All members of the school, including students themselves, have a responsibility to recognise bullying and to take action when they are aware of it happening. Bullying behaviour can be overt (directly and easily observed) or covert (indirect and hidden or less easily observed). A great deal of bullying is covert with bullying behaviour rarely occurring in front of adults. If students are being bullied, they need to feel supported and know what to do.

Examples of bullying behaviours include:

- Physical, e.g. hitting, kicking, taking belongings.
- Verbal, e.g. name calling, insults, racist, sexist, sexually and gender-based bullying.
- Social/relational, e.g. spreading nasty stories, excluding from groups, making threats, standover tactics.
- Cyberbullying, e.g. posting negative comments on social media, publishing or sending inappropriate messages or images.
- Digital, e.g. sending mean or intimidating texts.

To effectively prevent and respond to bullying behaviour at St Patrick's Napier we:

- Create a safe, inclusive, and respectful environment.
- Promote **digital citizenship** to our students.
- Identify and acknowledge bullying/intimidating behaviour.
This includes cyberbullying, and gender-based bullying
